

Homework

Projects

Each half term you will be given five project ideas. We expect at least three of the projects to be completed by the hand in date. Try to be as creative as possible! You can use your project book, or present your work in a different way—it is completely up to you! Please email your project, or a picture of your project, to year2@stmryb20.org. Include your name, class and the word 'project' in the subject line.

Spellings

You will be sent all of the spellings for each half term. We will have a spelling test each **Friday** and results will be sent home that day. We will begin by revising our phonic spellings and then work through the Year 2 spelling curriculum.

Maths

Each term, you will be given a maths area to focus on at home. Please visit the White Rose Maths website for videos to support learning. Please continue to practise your times tables using TTRockstars. Every weekend, there are rock battles between the classes—let's try to make sure we win! You can even challenge your teacher! Every time you improve your rock status, you will be moved up on our year group leader board in the corridor!

Online Learning Platform— Education City

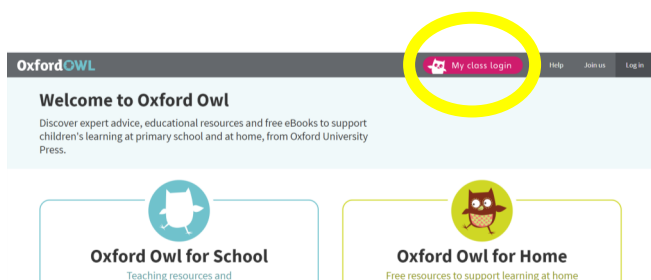

Education City is a great learning platform with a range of activities that you can dip in and out of. We will also set specific work for you to complete, under the Homework and Classwork tabs, to support your learning each week.

Reading

Reading books will be sent home each **Friday**. Please return your books each **Wednesday**, so that they can be quarantined before being shared again. Oxford Owl has an excellent range of eBooks that can be accessed through all devices. Just click on 'my class login' and enter the details below to view the online library.
